Lot No.

Altosid® P35

An extended residual INSECT GROWTH REGULATOR PRODUCT TO PREVENT ADULT MOSQUITO EMERGENCE (including those mosquitoes that may transmit diseases, including West Nile virus, Dengue, Chikungunya, and Zika virus)

Controls mosquitoes for up to 35 days of continuous wet conditions

Dust free formula

Controls Aedes, Culicidae, Psorophora, Anopheles, Coquillettidia, Mansonia, Ochlerotatus, and other mosquitoes

Consistent size granule

May be applied to both crop and non-crop sites

KEEP OUT OF REACH OF CHILDREN

CAUTION

NET WT 40 LBS (18.14 kg)

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION

Causes moderate to severe eye irritation. Avoid contact with eyes or clothing. Do not inhale dust or mist. Do not ingest. Causes mild to moderate respiratory irritation. Avoid breathing dust or mist. Avoid prolonged skin contact. If you breathe dust, rinse or replace contaminated clothing before reuse.

FIRST AID

If in eyes • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

If on skin • Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

If swallowed • Do not induce vomiting. • Call a poison control center or doctor for treatment advice.

If inhaled • Get fresh air immediately. If breathing is slow, shallow, or stopped, call a poison control center or doctor for treatment advice.

If exposed to dust or mist • Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

GENERAL DIRECTIONS:

GENERAL DIRECTIONS:

INTRODUCTION

Altosid® P35 is a sugar-based material used to suppress mosquitoes in a variety of habitats. Altosid® P35 provides consistent release of the Insect Growth Regulator (IGR), S-Methoprene, to provide residual control for multiple broods for up to 35 days of continuous wet conditions. Altosid® P35, when applied to the water column releases effective levels of the IGR to delay onset of larval development thereby preventing adult mosquito emergence. Altosid® P35 controls the major species of mosquitoes including: Aedes, Anopheles, Psorophora, Culicidae, Ochlerotatus, Coquillettidia and Mansonia spp.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION SITES:

Altosid® P35 may be applied to both crop and non-crop areas as directed above to temporary and permanent sites which support mosquito larval development. Examples of such sites include: snow pools, or bodies of water in or near livestock troughs, water-holding receptacles (e.g., tires, urns, bird baths, flower pots, cans, and other containers), irrigated and non-irrigated pastures, hollow points and other natural and manmade water-holding sites, containers and depressions. Examples of crop areas include: irrigated crop fields, pastures, cornfields, vineyards, rice fields (domestic and wild), pond, ditches, rice field and orchards, berry fields, loops and rice crops.

ENVIROMENTAL HAZARDS

Do not contaminate water when dispensing of残留物 or equipment washwaters.

INTRODUCTION

Altosid® P35 contains a sugar-based material used to suppress mosquitoes in a variety of habitats. Altosid® P35 provides consistent release of the Insect Growth Regulator (IGR), S-Methoprene, to provide residual control for multiple broods for up to 35 days of continuous wet conditions. Altosid® P35, when applied to the water column releases effective levels of the IGR to delay onset of larval development thereby preventing adult mosquito emergence. Altosid® P35 controls the major species of mosquitoes including: Aedes, Anopholes, Psorophora, Culicidae, Ochlerotatus, Coquillettidia and Mansonia spp.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL DIRECTIONS: Altosid® P35 begins releasing effective levels of the IGR soon after application to inhibit and prevent the emergence of adult mosquitoes for up to 35 days after application. Continue applications throughout the entire season to maintain control. IGR-treated treatment continues to develop normally to the pupal stage when they die.

Rotary and fixed-wing aircraft equipped with granular spreaders capable of applying rates listed below may be used to apply Altosid® P35. Ground equipment which will achieve even coverage at these rates may also be used. Apply Altosid® P35 uniformly and repeat application as necessary.

NOTE: Altosid® P35 has no effect on mosquitoes which have reached the pupal or adult stage prior to treatment.

APPLICATION TYPING: Apply Altosid® P35 at any stage of larval mosquito development.

Granules may be applied up to 15 days prior to flooding (i.e., “pre-hatch” or “pre-flood”) in areas which flow. In such areas, one application of Altosid® P35 can prevent adult mosquito emergence from several subsequent wetting events. The actual length of control depends on the duration and frequency of wetting events.

APPLICATION RATES: Altosid® P35 controls the major species of mosquitoes including: Aedes, Psorophora, Culicidae, Coquillettidia and Mansonia spp. Apply Altosid® P35 at 10-20 pounds (5.0-11.2 kg/ha). Within these ranges, use lower rates when water is shallow (< 6’-12”) and vegetation and/or organic matter are minimal. Use higher rates when water is deeper (> 1 ft) and/or vegetation and/or organic matter are heavy. In water depths greater than 2 ft, double the application rate for each subsequent foot of water. Depending on water depth and degree of organic matter, lower use rates may provide less IGR residual. Application of Altosid® P35 to sites subject to water flow or exchange will diminish the product’s effectiveness and residual activity, which may require higher application rates and/or more frequent applications.

APPLICATION SITES: Altosid® P35 may be applied to both crop and non-crop areas as directed above to temporary and permanent sites which support mosquito larval development. Examples of such sites include: snow pools, water, tidal marshes (cattail, red cedar, white maple marshes), woodland ponds and meadows, ditches and slop sites, drainage areas, ditches, wastewater treatment facilities, livestock feedout lagoons, retention ponds, harvested timber stacks, swales, storm water drainage areas, sewers, catch basins, tree holes, animal watering troughs, water-folding incipient ponds (i.e., tree, oven, bird bath, flower pots, cans, and other containers), irrigated and non-irrigated pastures, hollow points and other natural and manmade water-holding sites, containers and depressions. Examples of crop areas include: irrigated crop fields, pastures, cornfields, vineyards, rice fields (domestic and wild), pond, ditches, rice field and orchards, berry fields, loops and rice crops.

Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store closed containers in a cool, dry place. Pesticide Disposal: Results resulting from the use of this product may be disposed of on site or be disposed of in a sanitary landfill, by incineration, or by disposal by state and local authorities, by burning. Disposal of soap (5.6 lbs per 1000 gal) - Paper/Plastic Bags: Nonrefillable container. Do not reuse or refill this container. Completely empty container into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. Pour any remaining liquid (Far refillable turf) - Refillable container. Refill this container with this product only. Do not reuse the container for any other purpose. Return empties, containers to Central Garden & Pet Company (Central Life Sciences) for cleaning and recycling. Cleaning the container before final disposal is the responsibility of the person disposing of the material. Call before refilling is the responsibility of the refiller. If the container is not returned, completely empty container to靠谱 sites and bottoms to bottom material. Then offer for recycling if available or dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

WARRANTY

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions of Warranties and Limitations of Liability before using this product. If you are not satisfied with the product, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions of Warranties and Limitations of Liability.

CONDITIONS: The Directions for Use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risk associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Central Garden & Pet Company. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: To the extent consistent with applicable law, Central Garden & Pet Company makes no other warranties, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statement made on this label. No agent of Central Garden & Pet Company is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, Central Garden & Pet Company disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY: To the extent consistent with applicable law, the exclusive remedy of the user or buyer for any and all losses, injuries, or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the purchase price paid or at Central Garden & Pet Company’s election, the replacement of product.
