Safety Data Sheet

Section 1: Identification

Product identifier

Product Name
Aqua Perm-X UL 30-30

Synonyms
100209041; EPA Reg. No.: 89459-76; Prentox Perm-X UL 30-30

Product Description
Clear amber liquid.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use
Pesticide.

Restrictions on use
KEEP OUT OF THE REACH OF CHILDREN. Avoid contact with eyes, skin or clothing. Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator’s certification. Do not take internally. Use in well ventilated area.

Details of the supplier of the safety data sheet

Manufacturer
Central Garden & Pet Company
1501 E. Woodfield Road, Suite 200W
Schaumburg, IL 60173
United States

Emergency telephone number

Manufacturer (Transportation) 1-800-424-9300 - CHEMTREC
Manufacturer (Transportation) 1-703-527-3887 - Chemtrec - Outside US collect calls accepted
Manufacturer 1-800-248-7763

Section 2: Hazard Identification

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012
• Specific Target Organ Toxicity Single Exposure 1
• Eye Irritation 2A
• Acute Toxicity Oral 4
• Acute Toxicity Inhalation 4
• Skin Sensitization 1
• Carcinogenicity 2
• Aspiration 1

Label elements

OSHA HCS 2012
DANGER
Hazard statements
- May be fatal if swallowed and enters airways
- Causes damage to organs - nervous system via inhalation, ingestion
- Harmful if swallowed
- May cause an allergic skin reaction
- Causes serious eye irritation
- Harmful if inhaled
- Suspected of causing cancer.

Precautionary statements
Prevention
- Do not breathe dust, fume, gas, mist, vapours and/or spray.
- Wash thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear protective gloves/protective clothing/eye protection/face protection.
- Use only outdoors or in a well-ventilated area.
- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Contaminated work clothing should not be allowed out of the workplace.

Response
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
  Do NOT induce vomiting.
  Rinse mouth.
- IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor if you feel unwell.
  Specific treatment, see supplemental first aid information in Section 4 - First Aid Measures.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  If eye irritation persists: Get medical advice/attention.
- IF exposed or concerned: Get medical advice/attention.
- IF ON SKIN: Wash with plenty of soap and water.
  If skin irritation or rash occurs: Get medical advice/attention.
  Wash contaminated clothing before reuse.

Storage/Disposal
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
- Store locked up.

Other hazards
- OSHA HCS 2012
- This product is extremely toxic to fish and aquatic invertebrates. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

Section 3 - Composition/Information on Ingredients
Substances
- Material does not meet the criteria of a substance.

Mixtures

<table>

40% of the mixture consists of an ingredient of unknown acute inhalation toxicity.

### Section 4: First-Aid Measures

**Description of first aid measures**

**Inhalation**

- **IF INHALED:** Remove person to fresh air and keep at rest in a position comfortable for breathing. Call a poison control center or doctor if you feel unwell.

**Skin**

- **IF ON SKIN:** Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**Eye**

- **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Ingestion**

- **IF SWALLOWED:** Aspiration hazard - do NOT induce vomiting. Call a physician or poison control center immediately. Rinse mouth.

**Most important symptoms and effects, both acute and delayed**

- Aspiration hazard, causes damage to organs - nervous system, causes eye irritation, suspected of causing cancer, may cause an allergic skin reaction in individuals with a sensitivity to Piperonyl butoxide, harmful if inhaled, harmful if swallowed. Refer to Section 11 - Toxicological Information.

**Indication of any immediate medical attention and special treatment needed**

**Notes to Physician**

- Treat symptomatically and supportively.

### Section 5: Fire-Fighting Measures

**Extinguishing media**

- **Suitable Extinguishing Media:** Water fog, foam, dry chemical or carbon dioxide.

- **Unsuitable Extinguishing Media:** Avoid heavy hose streams.

**Firefighting Procedures**

- Do not allow fire fighting water to escape into waterways or sewers.

**Special hazards arising from the substance or mixture**

- **Unusual Fire and Explosion Hazards:** No data available.

- **Hazardous Combustion Products:** Decomposes upon heating to produce toxic vapors/gases including carbon monoxide.

**Advice for firefighters**

- Do not allow run-off to enter waterways. Wear positive pressure self-contained breathing apparatus (SCBA).

### Section 6 - Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

- **Personal Precautions:** Wear appropriate personal protective equipment, avoid direct contact.

- **Emergency Procedures:** Eliminate all ignition sources. Do not allow runoff into water, storm drains or drainage ditches. Stop leak if you can do it without risk. Ventilate closed spaces before entering.
Environmental precautions 

- Do NOT wash away into sewer. Avoid release to the environment.

Methods and material for containment and cleaning up

Containment/Clean-up Measures 

- Absorb spills with an inert material, clay granules or other inert absorbent material and put in container for disposal.

Section 7 - Handling and Storage

Precautions for safe handling

Handling 

- Use good safety and industrial hygiene practices. Wash thoroughly with soap and water after handling. Avoid breathing fumes. Avoid contact with skin or eyes. Avoid release to the environment. Avoid contact with heat and ignition sources. Do not use in areas without adequate ventilation.

Conditions for safe storage, including any incompatibilities

Storage 

- Store in cool, dry, secure place. Keep out of reach of children. Avoid extreme temperatures. Keep container/package tightly closed and in a well-ventilated place. Keep only in original container. Store locked up.

Incompatible Materials or Ignition Sources 

- Strong acids, strong bases, and oxidizing agents.

Other Information 

- See product label for additional information.

Section 8 - Exposure Controls/Personal Protection

Control parameters

Exposure Limits/Guidelines 

- No data available.

</tr>
</tbody>
</table>

Exposure controls

Engineering Measures/Controls 

- Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values.

Personal Protective Equipment

Pictograms

- 

Respiratory 

- In case of inadequate ventilation, avoid breathing vapors or mist, wear a NIOSH approved chemical cartridge respirator with organic vapor cartridges and a pesticide pre-filter.

Eye/Face 

- Wear chemical splash safety goggles.

Hands 

- Wear chemical resistant gloves. Barrier laminate, nitrile rubber, neoprene rubber or Viton are recommended.

Skin/Body 

- It is recommended for handlers to wear appropriate clothing to prevent skin contact including long sleeves, long pants, socks and shoes.

Environmental Exposure Controls 

- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways.

Potential Health Effects

Inhalation

- **Acute (Immediate)**: Harmful if inhaled. Permethrin affects nervous system. Symptoms of overexposure to permethrin include diarrhea, salivation, tremors, convulsions, hyperactivity and hypersensitivity.
- **Chronic (Delayed)**: No data available.

Skin

- **Acute (Immediate)**: May cause an allergic reaction in individuals with a sensitivity to piperonyl butoxide.
- **Chronic (Delayed)**: No data available.

Eye

- **Acute (Immediate)**: Causes serious eye irritation.
- **Chronic (Delayed)**: No data available.

Ingestion

- **Acute (Immediate)**: Aspiration hazard - small amounts of liquid aspirated into the lungs during ingestion or from vomiting may cause chemical pneumonitis or pulmonary edema. Harmful if ingested. Permethrin affects nervous system. Symptoms of overexposure to permethrin include diarrhea, salivation, tremors, convulsions, hyperactivity and hypersensitivity.
- **Chronic (Delayed)**: No data available.

Carcinogenic Effects

- Naphthalene is listed as a suspected human carcinogen by IARC.

### Persistence and degradability
- No data available

### Bioaccumulative potential
- No data available

### Mobility in Soil
- No data available

### Other adverse effects
- No data available

### Ecological Fate
- No data available.

### Potential Environmental Effects
- This product is extremely toxic to aquatic organisms, including fish and invertebrates. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds.

### Section 13 - Disposal Considerations

#### Waste treatment methods

**Product waste**
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. Never place unused product down any indoor or outdoor drain.

**Packaging waste**
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. Nonrefillable container. Do not reuse or refill container. See product label for container disposal instructions.

Section 15 - Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture
SARA Hazard Classifications • SARA Title III Section 313, Acute

FIFRA – Pesticide Labeling

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

CAUTION

Precautionary Statements • KEEP OUT OF THE REACH OF CHILDREN.

Hazards to Humans and Domestic Animals

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear long sleeved shirt, long pants, shoes, socks, and chemical-resistant gloves (barrier laminate, nitrile rubber, neoprene rubber, or viton, Selection Category E). Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

First Aid • IF SWALLOWED: Immediately call a poison control center or doctor. • Do not induce vomiting unless told to by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING: Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice. NOTE TO PHYSICIAN: Contains petroleum distillate. May pose an aspiration pneumonia hazard.

Environmental Hazards • This pesticide is extremely toxic to fish and aquatic invertebrates. Runoff from treated areas or deposition of spray droplets into a body of water may be hazardous to fish and aquatic invertebrates. Do not apply over bodies of water (lakes, rivers, permanent streams, natural ponds, commercial fish ponds, swamps, marshes or estuaries), except when necessary to target areas where adult mosquitoes are present, and weather conditions will facilitate movement of applied material away from the water in order to minimize incidental deposition into the water body. Do not contaminate bodies of water when disposing of equipment rinseate or washwaters. Bee Warning: This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift on blooming crops or weeds while bees are actively visiting the treatment areas, except when applications are made to prevent or control a threat to public and/or animal health determined by a state, tribal or local health or vector control agency on the basis of documented evidence of disease causing agents in vector mosquitoes or the occurrence of mosquito-borne disease in animal or human populations, or if specifically approved by the state or tribe during a natural disaster recovery effort.
